

**REDCap** is a secure web application for building and managing online surveys and databases.

Over 2,235 institutions in 108 countries use **REDCap**:

Compared to other online survey tools, **REDCap** is:

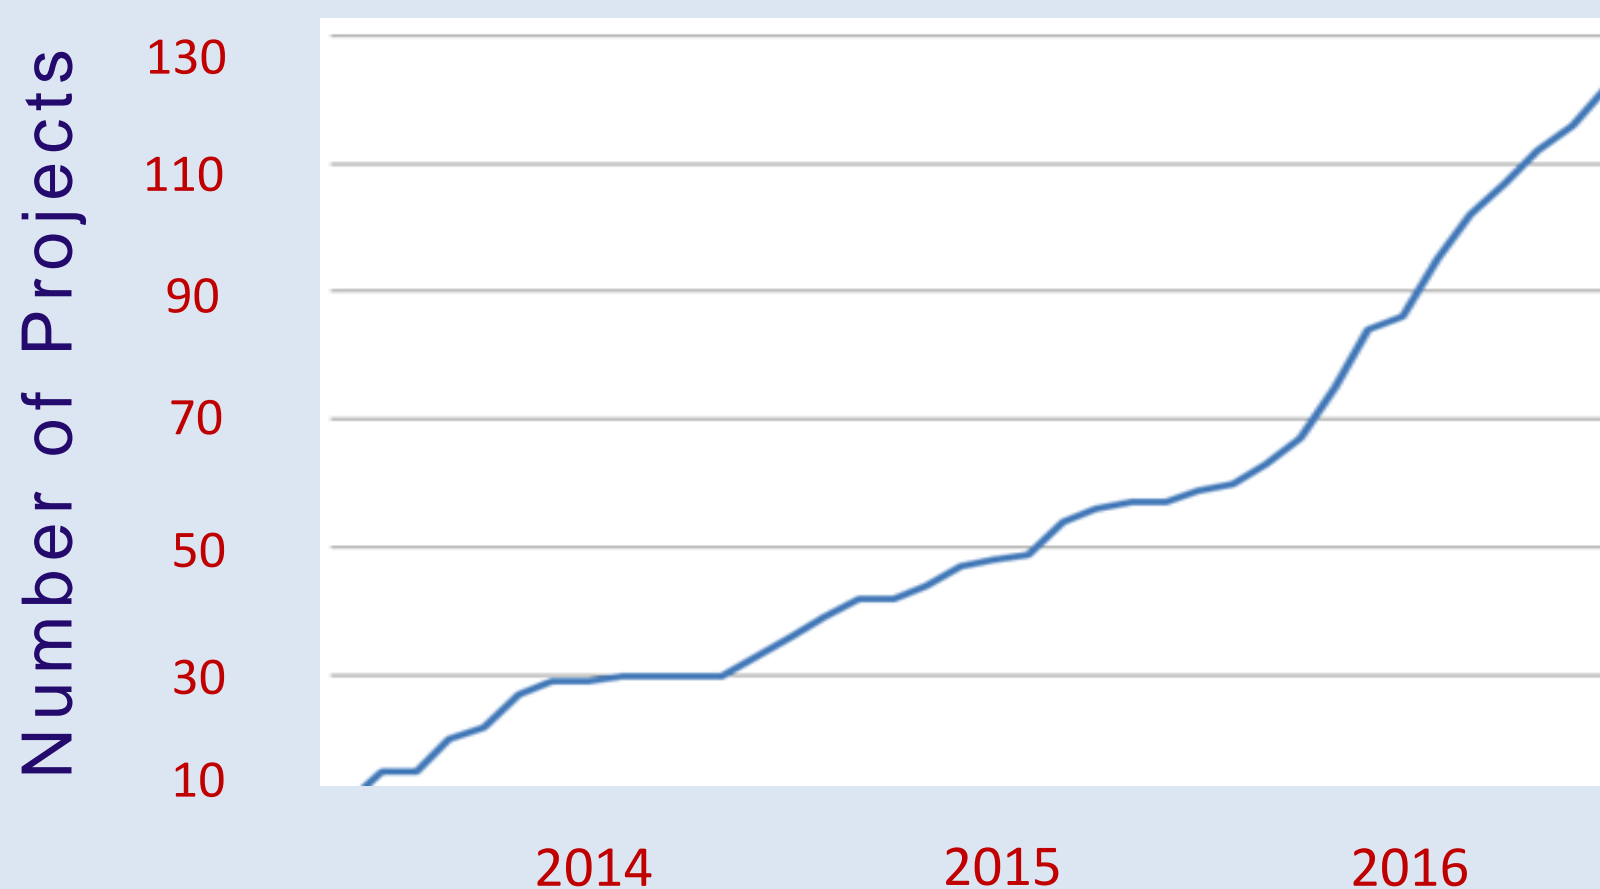

**Secure:** Store all your **REDCap** data in Canada on Island Health servers.

**Flexible:** Send different surveys to participants based on previous responses.

**Automated:** Send invitations and schedule follow-ups based on responses and timelines.

**Comprehensive:** Collect new data online and combine with other data sources uploaded to **REDCap**.

### REDCap Projects at Island Health:

What your colleagues have to say about **REDCap**:

“ I worked closely with the **REDCap** team to set up my project. They were absolutely **fantastic**: professional, helpful, personable, responsive, & knowledgeable. I **recommend** them & **REDCap** to anyone who asks. ”

“ **Superb** service delivery & support by the **REDCap** team. ”

“ I use **REDCap** for two projects. All good! ”
