

Cardiology Technologists

Come join our friendly, hard working cardiology technology team!

OUR TEAM

- Hard working, committed staff
- Fast paced environment
- Strive for excellence in our patient care
- Respected throughout Island Health for our dedication, hard work and flexibility
- Meet the high standards established in a cardiac teaching centre

OUR DEPARTMENT

- Well-organized with different rooms for each of the different tests
- In main lab, we have outpatient testing rooms for ECG's, treadmills, holter set ups, holter scanning, event monitoring and tilt table testing
- Modern computerized equipment with a high standard of maintenance

UNIQUE FEATURES

- Stress echo treadmills in a busy echo department
- Treadmills in a Cardiac Rehabilitation Clinic
- Tilt table testing
- Cardiac centre provides tertiary services including open heart surgery, electrophysiology lab, cardiac catheterization lab, pacemaker/ICD implants and Heart Function/Cardiac Rehab Clinic
- Involvement in Cardiac Research

BENEFITS OF WORKING HERE

- Lots of work, shift flexibility
- Variety of work duties and experience
- On-site in-services and education strongly encouraged
- Course exam sittings done on site
- Great people to work with

Excellent health and care for everyone, everywhere, every time
