ii) Total number of residents: _____

Comments: _____

***Please see overleaf for definitions**

Report of Influenza Immunization – Residents of Long Term Care Facilities 2021 – 2022 Season

Two submissions for the 2021-2022 Season:

The Ministry of Health has requested earlier reporting in this season, including an interim and final report.

| Term | *Definition for Reporting |
|--------------------------------------|---|
| Long Term Care Facility | <p>Long term care facilities, including private facilities, that have 50% or more residents aged 65 years and older, provide some health care services, and are either:</p> <ul style="list-style-type: none"> a) licensed under the Hospital Act; or b) licensed under the Community Care and Assisted Living Act <p>Note: This definition excludes mental health facilities with less than 50% residents aged 65 years and older and assisted living facilities that do not provide health care services.</p> <p>Note: Health Service Delivery Areas (HSDAs) in which more than 75% of residents of long term care facilities are living in facilities with 20 or more residents may limit the data they collect from facilities licensed under the Community Care and Assisted Living Act to facilities that provide some health care services and house 20 or more residents. This decision will be made at the HSDA level.</p> |
| Funding Source | <p>Owned and operated facilities: Owned and operated by the Health Authority; services are subsidized by the Ministry of Health.</p> <p>Contracted facilities: Operated by a contracted provider (not the Health Authority); services are subsidized by the Ministry of Health.</p> <p>Private facilities: Owned and operated by a private company; services are not subsidized by the Ministry of Health.</p> |
| Date of report | <p>The date on which the long term care facility reports the number of immunized and total residents. Please complete this item to indicate whether your end of October report is an interim and final report, or whether it is an interim report with expectation of a final report end of November. If immunization of residents has been completed by end of October without expectations of change (apart from new admissions) you may submit the October report as an interim AND Final report (choose the middle option) without need to submit a final report.</p> |
| Number of Residents Immunized | <p>The number of individuals living in the residential care facility who have been immunized against influenza in the current season, whether while residents of the facility or prior to admission.</p> <p><i>e.g., 84 of the residents living in the facility on October 29th had been immunized.</i></p> |
| Total Number of Residents | <p>The number of individuals living in the residential care facility.</p> <p><i>e.g., On October 29th there were 86 residents of the facility.</i></p> |
