

Outbreak Restrictions Not Imposed

Continue CONTACT and DROPLET Precautions for ill patients/residents/clients and identified exposed roommates

ACTIONS

Hand Hygiene

Hand Hygiene is extremely important for staff and patients/residents

Ensure you offer hand hygiene prior to snacks and/or meal times

Precautions

Confine ill patient to their rooms on Contact and Droplet Precautions

Meals must be served to these patients in their rooms

Housekeeping

Inform housekeeping of all residents on Contact and Droplet Precautions

Conduct a **Precaution Clean*** for those residents/clients on Droplet Precautions

*refer to Outbreak Cleaning Guidelines

Staff

Be alert to staff who develop illness

Staff with ILI, respiratory illness or fever should NOT come to work and should be instructed to contact Island Health for testing at 1.833.737.9377

Surveillance

Complete the Respiratory/ILI Tracking list and send to your ICP/CD Program daily.

If any resident/client meets COVID-19/Respiratory Illness/Influenza Like Illness Case Definition, refer to **Suspected COVID-19/Respiratory Illness/Influenza Like Illness Algorithm: Long-Term Care/Congregate Living (ILI-LTC-1)**

Reassessment

Additional control measures may be required depending on pathogen and course of illness
