

# Patient Partner Roles & Responsibilities

## Roles

- Partner with Island Health to work toward a common goal of improving health and care
- Actively participate by sharing feedback, experiences, and opinions in a respectful manner
- Focus on improvement opportunities
- Build partnerships based on mutual respect and open communication

## Responsibilities

- Ask questions if material is not clear
- Focus on the goals and objectives of the project
- Attend meetings to which you've committed or let the point-of-contact know you when you are not able to attend
- Support and model the code of conduct and Island Health Values
