Common Questions

1. Proposed Study Amendment

#	Question	Answer
1.1	Study title:	
1.2	Has there been any change to the Principal Investigator or Principal Investigator contact information since the last submission to the Research Ethics Board?	
1.3	If there is a new PI, or PI contact information has changed, please provide name and all contact information below:	
1.4	If a new PI has joined the study team, have they completed TCPS 2: CORE-2022 and GCP training?	
1.5	Have there been any change to the primary contact information or to members of the research team since the last submission to the Research Ethics Board?	
1.6	If study team members have been removed or added, or there is new contact information, please describe below:	
1.7	If new study team members have been added, have they completed the required training?	
1.8	Please provide a summary of the proposed amendment, including rationale:	
1.9	Does the proposed amendment change the study design (e.g. collect additional data, change the study objectives, research design, sample size, inclusion/exclusion criteria, treatment/intervention procedures/dosage)?	
1.10	Does the proposed amendment increase the risk to participants?	
1.11	Does the proposed amendment change the study sponsor or funder?	
1.12	Does the proposed amendment change the study end date?	
1.13	Does the proposed amendment change any of the study or consent documentation? If Yes, ensure you attach a both a 'tracked changes' and a 'clean' copy of any documents you are changing.	
1.14	Please describe any other changes proposed by this amendment:	
1.15	Is this study still in the recruitment phase?	

1.16	How many participants have been enrolled in the study and what is their status?	
1.17	For study participants already enrolled, the Principal Investigator recommends:	
1.18	If Other, please describe:	
1.19	Is a Health Canada No Objection Letter (NOL) required for this amendment?	
1.20	Operational Changes: Please indicated if there are any changes or additions to Island Health supports required to conduct this research (choose all that apply):	
1.21	Operational Changes: Please summarize your amended requirements for Island Health services/supports here:
