### Common Questions

#### **1. Protocol Waiver/Exception Request**

| #    | Question                                                                                           | Answer |
|------|----------------------------------------------------------------------------------------------------|--------|
| 1.1  | Has the sponsor approved this request? (required by the Island Health REB)                         |        |
| 1.2  | Participant ID(s):                                                                                 |        |
| 1.3  | Type of waiver requested:                                                                          |        |
| 1.4  | Description of protocol waiver/exception request:                                                  |        |
| 1.5  | Reason protocol waiver/exception is needed:                                                        |        |
| 1.6  | Criteria affected by the protocol waiver/exception:                                                |        |
| 1.7  | Please provide rationale for answers checked above:                                                |        |
| 1.8  | Have you requested this protocol waiver/exception before?                                          |        |
| 1.9  | Do you think this protocol waiver/exception is likely to be needed again?                          |        |
| 1.10 | Has this protocol waiver/exception request been submitted to any other Research Ethics Board(s)?   |        |
| 1.11 | Do you recommend a change to the protocol based on this protocol waiver/exception request?         |        |
| 1.12 | Do you recommend a change to the site's consent form?                                              |        |
| 1.13 | Do you recommend a change to the study-wide consent form?                                          |        |
| 1.14 | If a change to the consent form(s) is recommended, do you plan to re-consent current participants? |        |
| 1.15 | Please describe any recommendations and re-consenting process if applicable:                       |        |
